

Hello dear,

We received another Great Gift, Lesson, Insight of Life.

And we truly want to share it. The message says that everything happens at the very perfect time and way and everyone is always where they need to be.

But please let us speak about it from the beginning.

Many of you have already noticed our interest in the **Montessori method**.

We began to materialize the space for education under the shelter of the **House for Souls**, which has been under construction for some time.

Interest and Method. One is both a goal and a consequence for the other ... We started creating space because we found this filled with Light and at the same time such a scientific approach to the **Future** adult - our **Child**. And we deepen, we continue our studies independently, because we want and have to feel what did That Wonderful Teacher of Humanity, the first female doctor in Italy - **Maria Montessori**, felt at the time: **What** motivated her, **What** did she see in the **Child** and **How** did she specifically help Him to discover and educate himself?

We are convinced that it is sincerely important to follow the direction given by Her in order to become aware of and apply the Essence of Her legacy.

And we all know - when you start to take an interest in something with the **Heart** itself - the Support of the **Universe** comes.

So we were rewarded with a meeting with “*tenera mente – onlus*”! An Italian association which devoted itself to the study and practice of the Montessori method. It suddenly appeared from Heaven to our life’s crossroad with the goal of helping us to create Space, inspiring the future Montessori community, providing essential knowledge to educators.

INTRODUCTION TO THE MONTESSORI METHOD with Enrica Baldi will be held on Skype, two days for three hours each: **December 19 and 27, 2 - 5 p.m. Lithuanian time.**

Everyone who is serious about getting to know and / or go deeper into the 0 - 6 age group is invited to participate in the seminar: future educators, their assistants, parents, grandparents, social workers, healthy food developers, everyone who cares about **the Child - the Future** of us all.

All participants will be issued an official certificate of completion of the course.

Price for a person or family (if both parents want to go deeper and participate in the seminar) - 35 eur;

Those who do not understand English may attend at a special price. Information reaches us not only verbally. The audio will be translated later and it will be easier to delve into the material after having the image of it.

Registration and information to the seminar: +370 603 57776, +370 623 32343, namaisieloms@gmail.com

IMPORTANT – Montessori is for the whole family. The method works only in a consistent and continuous environment - involving a substantial part of the people surrounding the child.

In the future we intend to continue studies live.

“tenera mente – onlus”, represented by Enrica Baldi, aims to spread the message of Maria Montessori's legacy around the world, to support poorer countries by educating and inspiring families and educators to use the phenomenal method of human development found by scientist, doctor and educator Maria Montessori from the very beginning - education of future parents.

More about the Association - <http://www.tenera-mente-onlus.org/info/>

An example of the seminar can be found here - http://www.tenera-mente-onlus.org/wp-content/uploads/2020/09/Montessori-Romania_TM-INGLESE11.09.20.pdf

We don't have one ready for Lithuania yet, but the same seminar took place in Romania, that's its description (the price is different). There you will find more information about Enrica herself.

Let us be guided by the desire to **give up our needs for the needs of the evolving personality ...** - in order for **Man** to be born and raised - the **Guardian of the Mother Earth**.

With God,

Giedrė and Šarūnas Kondratai
